

3rd Edition of
International Conference on

Neurology & Brain Disorders

TENTATIVE
PROGRAM

INBC
2019

JUNE 24-26, 2019
PARIS, FRANCE

*Theme: Advancements and Challenges in
Neuroscience & Brain Disorders*

 @Neurologycongress

 @NeurologyEvent

<https://neurologycongress.com>

Keynote Talks

Title: Hypothesizing the Central Nervous Systems Genius to Trigger and Self-organize to Higher States of Complexity as Epitomized in the Case of Noah Wall the Boy Born With Only 2% of His Brain.

Ken Ware, NeuroPhysics Therapy Institute and Research Centre, Australia

Title: Cerebral manifestations in the antiphospholipid syndrome: autoantibodies involved in accelerate the process of atherosclerosis

Ljudmila Stojanovich, University Medical Center, Belgrade, Serbia

Title: Synchronization & Bifurcations in Brain Activity

Marat Akhmet, Middle East Technical University, Turkey

Title: Cytotoxic And Neuroprotective Activity of Serotonin Transporter Inhibitors and Serotonin Receptor Ligands With Antidepressant Activity

Zdzislaw Chilmonczyk, National Medicine Institute, Poland

Title: Yet to be decided

Harry W.M. Steinbusch, Maastricht University, The Netherlands

Title: Gut-brain axis in children with cerebral palsy or autism

Reidun Stenberg, University Hospital Research Center, Sweden

Title: CAPS as an instrument of verification of PTSD diagnosis in combatants with PTSD

Margarit Tadevosyan, "Artmed" Medical Rehabilitation Center, Armenia

Title: Yet to be decided

Jean-Pierre Mothet, Aix-Marseille University, France

Title: Yet to be decided

Casadesus Smith Gemma, Kent State university, USA

Special Plenary Talk

Title: Brain dynamics of normal and abnormal learning and memory consolidation: Multiple hippocampal functions in cognitive, adaptively-timed cognitive-emotional, and navigational learning

Stephen Grossberg, Boston University, United States

Special Talk

Title: Musicalization of Neurological Disorders: Songs of Love and Hope to Heal our Patients

William S Baek, Parkside Medical Group, United States

Oral Presentations

Title: What is New in Neuroscience

Aage R moller, The University of Texas at Dallas School of Behavioral and Brain Sciences, USA

Title: Optogenetic manipulation of slow oscillations in an Alzheimer's animal model

Ksenia Kastanenka, Massachusetts General Hospital/Harvard Medical School, USA

Title: Obstructive Sleep Apnea in various cognitive disorders

Ramel Carlos, The Neurology Clinic, Guam, USA

Title: Three cellular mechanisms contributing to aging of the brain

Joe Herbert, University of Cambridge, UK

Title: Epigenetics and Mental Health; Implicating the role of DNA Methylation in Rett Syndrome

Mojgan Rastegar, University of Manitoba, Canada

Title: New strategies for improving the quality of life of cancer survivors: Reversible p53 inhibition

Jing Wang, Institute of Neurosciences of Montpellier, France

Title: Opiate exposure in the developing brain and toxic stress in early childhood: How brain structure and function is altered and impacts life-long health

Mary Payne, Marshall University School of Medicine, USA

Title: CB1-Dependent LTD in Ventral Tegmental Area GABA Neurons: a Novel Target for Marijuana

Jeffrey Edwards, Brigham Young University, USA

Title: Drug and Substance Abuse in Refractory Epilepsy

Raafat Abdeldayem, Mansoura University, Egypt

Title: A Novel View on the Modular Organization of the Motor System

Emilio Bizzi, Massachusetts Institute of Technology, USA

Title: The role of dopplerography in the diagnosis of left-sided ischemic stroke

Rizvan Abdullaiev, Kharkiv Medical Academy of Postgraduate Education, Ukraine

Title: Infant – Parent interactions of reflexive and voluntary gaze and sensory responsiveness

Bengt Sivberg, Lund University, Sweden

Title: Analysis of the influence of various factors on the quality of life of patients with epilepsy in Kyrgyz Republic

Elnura Eralieva, Osh City Clinical Hospital, Kyrgyzstan

Title: Neurologic Disorders in the Geriatric Psychiatry Context: an Anatomy of Care

Howard fenn, Stanford University, USA

Title: The Klotho Protein and Alzheimer's Interrelation

Valentina Barkhanskaya, Karaganda Medical University, Kazakhstan

Title: Evaluation of short term treatment with NAD⁺ precursor Nicotinamide Riboside on cognitive and mitochondrial function in patients with MELAS

Natasa Dragicevic, University of Connecticut Health Center, USA

Title: Palliative Care in Neurodegenerative Disorders

Fiona Kiely, Marymount University Hospital & Hospice, Ireland

Title: Gap Junction Channels and Hemichannels as a Therapeutic Target in Stroke

Christian C. Naus, University of British Columbia, Canada

Title: Epilepsy in the MENA (Middle East and North Africa) region

Boulenour Mesraoua, Weill Cornell Medical College Qatar

Title: Antagonistic genomics of brain in response to different stimuli

Zihua Jiang, Washington State University, USA

Title: Wildtype TDP-43 functions in DNA repair but this process is perturbed in Amyotrophic lateral sclerosis (ALS)

Anna Konopka, Macquarie University, Australia

Title: Neuropsychiatric Disorders and Stroke in Cancer Pain Patients

Jinfeng Yang, Central South University, China

Title: Transcranial Doppler Sonography in Pediatric Neurocritical Care

Hyuksool Kwon, Seoul National Bundang Hospital, South Korea

Title: Hypoxia-induced bidirectional pathological long-term synaptic plasticity in visual retinocollicular pathway

Hanna Dumanska, National Academy of Science of Ukraine, Ukraine

Title: Dyna Brace quasi experimental randomize clinical trial Knee Unloader Orthosis with Optimal Transitional Mechanism in Subjects with Medial Compartment Knee Osteoarthritis

Roshanak Baghaei Roodsari, University of Social Welfare and Rehabilitation, Iran

Title: Anti- β 2-Glycoprotein I Autoantibody Expression as a Potential Biomarker for Strokes in Patients with Anti-Phospholipid Syndrome

Husham Bayazed, College of Medicine / University of Zakho, Iraq

Title: Neuromodulation – invasive and noninvasive stimulation in the treatment of orofacial pain

Richard Rokyta, Charles University in Prague, Czech Republic

Title: Perturbing and Detraining Fear and Avoidance Associated with Pathological Anxiety Disorders in Adults

Ken Ware, NeuroPhysics Therapy Institute and Research Centre, Australia

Title: Typical benzene poisoning on brain magnetic resonance imaging

Yan Wang, Chengdu fifth people's hospital Chengdu, China

Title: Reintegration of impaired motor-cognitive interactions in diseases and injuries of the brain by the author's method of kinesitherapy in the pneumatic suit "Atlant"

Valida Isanova, Kazan State Medical University, Russian Federation

Title: MicroRNA: a new tool for Natalizumab therapy in Multiple Sclerosis?

Andre Eduardo de Almeida Franzoi, University of the Region of Joinville, Brazil

Title: Yet to be decided

Calvintinus Meliala, Indonesia

Title: Yet to be decided

Yordian Yahya Bahar, Indonesia

Poster Presentations

Title: Development of a Targeted Drug Delivery System for the CNS using a Novel In Vitro Blood Brain Barrier Model

Susan Hawthorne, Ulster University, United Kingdom

Title: Addition associated engram cells as therapeutic targets of addiction

Yida Wang, Georgetown University Medical Center and Washington Institute for Health Sciences, USA

Title: Conflicting Naming Speed with High Executive Requirements Promptly Detects Multitasking Neural Problems

Manuel A. Sedo, Cross-cultural Conflicting Rapid Naming Tests, USA

Tentative Program

INBC
2019

Title: Effect of Gender and Age on Odor Identification in Humans: A Meta-analysis
Xiaochun Wang, Shanghai University of Sport, China

Title: Although Cognitive Tests Still in Normal Limits, Tau and Amyloid- β is high in APOE ϵ 4 Carriers in Cases with Subjective Memory Complaints
Nilgun Cinar, Maltepe University Hospital, Turkey

Title: RSK3 mediates necroptosis by regulating RIP3 activity in retinal ganglion cells
Kun Xiong, xiangya medical school, central south university, China

Title: Yet to be Decided
Hee-Young Kim, Pusan National University, Republic of Korea

Title: Investigation of the relationship between ZNF804A and DISC1 polymorphisms in RS61886494 and RS12133766 positions in schizophrenic patients
Parisa Azizi, Islamic Azad University, Iran

Title: Normal mri in patients with acute stroke is the best predictor of 90-day outcome
Zain A. Bhutta, Hamad Medical Corporation, Qatar

Title: Preclinical diagnosis of diabetic polyneuropathy: the role of neurospecific proteins
Katsiaryna Serabrova, Gomel State Medical University, Belarus

Title: Yet to be Decided
Dilshad Khorsheed Rasheed, Azadi Teaching Hospital, Iraq

Slots Available

Holiday Inn Paris – Marne La Vallée

2 boulevard du Levant, 93160 Noisy-le-grand, Paris, France

Conference Dates: June 24-26, 2019
